Even More Membership Benefits

A Network of Peers is one of the most prized benefits of STC membership. Networking with other technical communicators, both in person and online creates opportunities to build your career.

STC Chapters offer in-person connections and programming through local meetings, conferences, social events, and newsletters.

Special Interest Groups (SIGs), organized by work function and industry focus, accelerate your learning chain in specialty areas, with mailing lists, webinars, and virtual meetings. SIGs give you connections with members across the globe.

STC’s Technical Communication Body of Knowledge defines the profession and separates it from a trade which is a significant advantage for the entire profession. Continued work on vetted content will result in the development of new tools and templates, and increase your ability to do your job better!

Promoting the Profession STC continues to work with the Bureau of Labor Statistics to elevate “technical communicator” to a distinct profession. Companies use BLS data to determine salaries for full-time employees, which, in turn, determine market rates for contractors and freelancers. The ongoing efforts of STC directly impact your income.

Pick the best membership category for your needs.

Unparalleled Education Opportunities

The educational experiences you gain access to as an STC member include an annual conference with a host of seminars, webinars, and e-learning opportunities throughout the year that are widely attended and produce measurable value.

**STC Technical Communication Summit** Four days of the most popular conference education available in the field. Each year, some of the best names in technical communication give presentations, participate in panels, and provide insights.

**SUMMIT@aClick** We bring the Technical Communication Summit to you 24/7. The recorded conference sessions allow you to “attend” anytime.

**Live Webinars** Each month, we offer multiple hour-long, single-topic seminars for you and your coworkers. This format provides easier access to the materials as well as a more intimate learning environment.

**Free, Sponsored, Live Webinars** Live seminars brought by partnering vendors that range from beginner to expert level, providing opportunities for all of our members to learn.

**Recorded Webinars** Can’t make the live event? Recorded versions bring the seminars to you!

**Virtual Courses** Live sessions you may attend over several weeks. Completion of these professional development topics results in a certificate of completion.

**Virtual Conferences** Multiple online, live sessions on select topics over a 3-day period bringing the conferences directly to you.

What Members Say

“What STC has given me much more than I could possibly give it, and my path has been smooth because of the generosity of other STC members.”

— Jeff Haas
