

ThirtySix Software Offers 10% SmartDocs License Discount to STC Members

ThirtySix Software is offering a special 10% discount to STC members* on SmartDocs license purchases until 31 December 2012.

What is SmartDocs?

SmartDocs is a powerful content management and content reuse solution for Microsoft Word. With SmartDocs, content is authored once, approved once, and then reused over and over again. Track, share, search, find, and reuse your content across documents and across departments.

SmartDocs is used by teams of writers — technical writers creating documentation, sales teams writing proposals, instructional designers developing training, and more — to create documents faster and improve the quality of the documents they create.

Write Once. Approve Once. Use Everywhere.

To learn how you and your organization can take advantage of this offer, STC members should call ThirtySix Software at +1 (585) 943-5059 or write to info@thirtysix.net.

Learn more about SmartDocs and upcoming online webinars at thirtysix.net.

*A complete listing of STC members has been provided to ThirtySix Software and will be updated every three months during the discount period.
