

What should I do if the person I referred forgot to put my name on the application?

We can handle that. Simply ask the person you recruited to send an email to [STC membership](#) confirming that you were the "recruiter." Your full name along with your member number and phone number should be included.

How will I keep track of my results?

Each member should keep a record to track their own referrals for reference. In January 2013, results will be posted on the STC website.

Where can I find the online new member application?

The new member application is at <http://www.stc.org/join> . More information about the benefits of STC membership is available at <http://www.stc.org/membership> [ht](#)

If I don't feel comfortable asking acquaintances to join but I feel they are good candidates for membership, what should I do?

The "referral" option allows you to provide us with contact information for a potential membership candidate. Email [STC membership](#) , then we will take the next step by sending the individual(s) membership information and an application. However, you will not receive credit for any new member referred unless the new member provides your name and the name of the chapter or SIG that recruited them.

Help us to reach out, connect, and recruit new STC members!
